San Candido - Lienz (AUT) cycling path

(44 km - 500 m difference in altitude)

PROFILE

This cycling tour runs over a well-marked route suited to all bicycles. You'll start from San Candido, approx. 500 meters higher than your destination in Lienz. The 44 km between the two towns is easy to ride, and we can recommend it to families with kids and even long-distance cycling beginners. When you're ready to head back San Candido, just take the train. This tour is especially interesting because it offers a taste of two different nations (don't forget to bring an international travel document!). Pedalling through deep woods and meadows, you'll cross from the Italian to the Austrian part of Val Pusteria before reaching the latter's regional capital.

DETAILS

Leave from the train station or the center of San Candido and head east keep pedalling until the hospital. Take the underbridge and follow the cycle path all the way to Lienz. There are rest areas all along the way.
