Welcome

Mountains as far as the eye can see.
Nature as your constant companion.
Hiking paths and cycle trails. Challenging climbing routes. Quiet paths for walking. Adventures for the whole family. A delicious dish of pasta. An excellent glass of wine. Friendly people who will make you feel at home. In the mountains and in the valley. This is what we are: Sexten/Sesto, Innichen/San Candido, Toblach/Dobbiaco, Niederdorf/Villabassa, Prags/Braies. Five places in the heart of the Dolomites, a UNESCO World Natural Heritage Site.

We're delighted to welcome you as our guest.

We're happy to meet you.

Activities

Nature is our playground. Both in summer and in winter. Skiing and climbing, hiking, cross-country skiing and cycling - the possibilities are so varied, just like the region itself. Families and top-level athletes can feel equally at home here. There are lots of great activities right on our doorstep.

**Everything is possible here.
That's our great good fortune.**

Hiking & Climbing

That feeling of exhilaration when you reach the summit. The satisfaction of following in the footsteps of pioneers. A circuit of the Three Peaks - or even - a climb right to the top. Enjoy the amazing beauty of the view. Hone your technique on the climbing wall. In the heart of the UNESCO World Heritage Site. The mountains are in our blood, just like our love of cooking, with so many restaurants offering tempting local cuisine. But after all your efforts, you deserve something special.

Do you want to start now?

Take a look at our brochure with our suggestions for trips and via ferratas.

And the best is yet to come: whether you're a cycling enthusiast or a high-performance athlete, nature will be your constant companion as you tour the holiday region 3 Zinnen in the Dolomites.

This is the place for something different.

you feel happy. You can go on a toboggan ride
and enjoy the landscape. Or you can explore
the valleys on foot. Isn't that a lovely idea?

Family Summer

Enjoy a family bike ride along the cycle path in the valley, venture out on some easy hikes (are we nearly there?), travel up the mountain by cable car, and explore our Family Parks.

The holiday region 3 Zinnen Dolomites is a huge adventure playground for the whole family.

Learn about different animal tracks, find out interesting facts about mushrooms, search for the spirits of the rocks and explore the kingdom of the Gigante Baranci. Does that sound intriguing?

**We're a real land
of adventures for families.**

Dolomiti Ranger

How were the Dolomites formed?
Is it true that this area was once covered by a great sea? What kinds of animals live here? And how can we identify them by their tracks?
The Dolomiti Ranger programme provides answers to questions such as these. Children aged 7 to 12 and their parents can explore the unique environment of the Dolomites in the company of Natural Park guides.

Rock spirits

The new 2.5-kilometre-long “Rock spirits” family circular trail at Croda Rossa is coming soon and invites adventurers and history buffs to discover the secrets of this impressive mountain landscape. The Three Peaks have held an irresistible fascination for centuries and the desire to climb their summits is as old as man himself. For a long time, the peaks, the so-called ‚Knott’n‘ were considered frightening and inaccessible, inhabited only by ghosts and witches. But today, the „Rock spirits“ circular trail offers the opportunity to explore this mystical world and to learn the stories of the mountains.

The Gigante Baranci and his realm

The Monte Baranci family mountain is home to a local giant named Gigante Baranci. Those who enter his realm can follow in his footsteps by visiting various interactive stations, which are particularly aimed at entertaining little guests. Very close to the ‘giant’s footprint’ lakes by the Rifugio Gigante Baranci, you’ll find hidden away an alpine recreation area, a wonderful place to unwind - with a very special attraction: the Dwarf Village. High up in the branches there are quaint tree houses which you can explore via ladders and rope bridges. The life of a dwarf is reflected in the nine mountain huts below.

Tobogganing, cross-country skiing, ice skating, alpine skiing: sometimes you don't even know what to choose. Our family ski areas are large enough to offer you a wide choice of activities, but they also have all the proper safety measures in place. We are world champions at building snowmen.

**And there's snow, lots of snow.
That's what makes winter such fun.**

A word to describe our cultural offering? Variety. There's the Collegiate Church of Innichen/San Candido, one of the most important sacred buildings in the Eastern Alps. There's the Euregio Gustav Mahler Cultural Centre in Toblach/Dobbiaco, with its programme of high-quality music. There are museums such as the Dolomysythos, dedicated to the natural sciences, and there are events related to the Christian calendar, and other local celebrations: the fires of the Sacred Heart, the processions and traditional costumes. Our culture is an integral part of our daily life.

Come and enjoy it with us.

HIGHLIGHT CULTURE

Euregio Cultural Center Gustav Mahler Dobbiaco Dolomites

Südbahn railway construction starts tourism in Hochpustertal/Alta Pusteria; in 1877 the Grand Hotel was designed by the important railway engineer and architect under the royal and imperial monarchy Wilhelm Gustav Ritter von Flattich and built by Dr. Friedrich Schüller in 1879; meeting point for the European nobility. The building now houses the Euregio Cultural Center including a education center, a music school, the guesthouse, the youth hostel and the nature Park House Three Peaks.

HIGHLIGHT CHURCH

Roman Collegiate Church

The Collegiate Church of Innichen/San Candido is the most important religious building in the Romanesque style in the Eastern Alps. It should therefore be no surprise that it is known as the “cathedral” by local people.

The Romanesque architecture makes it appear more like a fortress, while high up in the dome a monumental fresco depicts the history of creation.

Pause a while to recover your equilibrium: the crypt is a place to restore your sense of calm.

Dolomites – an unique territory

We love the mountains.
We always have.
The mountains and rocks
around us have a profound
influence on our lives. They act
as a compass to guide us.
They shape our identity and
make us what we are:

dedicated mountain people.

Dolomites UNESCO World Heritage site

In 2009, the Dolomites were declared a UNESCO World Heritage site due to their scenic beauty and their geomorphological and geological significance. Only the world's most exceptional natural and human cultural assets receive this award.

The Dolomites Nature Parks, including Fanes-Sennes-Prags/Fanes-Senes-Braies and Drei Zinnen/Tre Cime, are part of this world heritage. It is an award that is also a particular responsibility in terms of conservation and of the sustainable development of this extraordinary mountain region.

Nature Parks Fanes-Sennes-Prags/ Fanes-Senes-Braies & Drei Zinnen/Tre Cime

**Conserve, understand and experience: there are a total
of seven nature reserves in South Tyrol.
Respecting nature is the top priority in all of them.**

The Fanes-Sennes-Prags Nature Park is the third largest nature reserve in South Tyrol. The Gross-Fanes and Klein-Fanes plateaus with the ‘Marmot Parliament’, the wide, stony pastures of Sennes, the green meadows and pastures of the Plätzwiese high plateau and the Pragser Wildsee lake and Toblacher See lake are the centrepieces of this nature reserve’s unique landscape.

To the east it borders the Drei Zinnen Nature Park, which features distinctive landscapes, peaks and mountains, especially the world-famous Three Peaks (Drei Zinnen). Mountain climbers from near and far have been completing pioneering mountaineering feats here ever since the second half of the 19th century. These days, high-performance climbers from around the world test their mettle against the vertical walls of these mountains.

„**Respect the mountain**“ is aimed at guests, locals and tourism professionals in the area of the Dolomites UNESCO World Heritage Site. The aim is to raise awareness for respectful and responsible behaviour on the mountain, but also in everyday life, starting with the topics of drinking water and waste. You too can contribute!

**The following principles will help you to move around the
protected area in an informed and respectful manner.**

	PLANNING	I will prepare for my tours by noting the weather forecast, carrying the right equipment, wearing sturdy shoes and taking sufficient liquids with me.
	MOBILITY	I will use public transport whenever possible, which takes me safely and conveniently to my starting point and back.
	PARKING	I will only ever park my car on the designated parking spaces, never on meadows or on the roadside.
	MOVING AROUND NATURE	I only use designated hiking or cycle trails.
	PRIVATE PROPERTY	I respect the private property of others.
	SHARED TRAILS	On trails meant for different purposes like hiking or biking, I behave considerately and responsibly towards others and the nature.
	HUTS SERVING FOOD	I will have patience and understanding when dealing with the owners of mountain huts, which take a lot of work and passion to manage. I will buy something if I use the toilet, I will consume food I bring with me away from the hut and take my rubbish home with me.
	NOISE	I will adjust my volume to the tranquility of nature and avoid unnecessary noise. I will leave my drone at home.
	PRESERVING FLORA	I will not pick or collect flowers, berries, mushrooms or other plants.
	FENCES/GRIDS	By conscientiously closing fences and gates, I help to protect pasture animals.
	GRAZING LIVESTOCK/ WILDLIFE	I will respect animals’ habitat by keeping my distance and calmly walking past the animals.
	DOGS	I will always have my dog on a lead. I will have a muzzle in my rucksack for emergencies.
	FIRES	Fires are prohibited. They endanger the natural and cultural landscape and my own life.
	CAMPING	I will only pitch my tent on designated camp sites.
	RUBBISH	I will throw any and all rubbish, especially tissues, cigarette butts and dog waste bags, into the containers provided or take it home with me.
